### ■ 1) Preparation:

Please sit or lie down, whichever is more comfortable for you, and ensure that you will not be disturbed for at least 5 minutes or so. Perhaps you wish to play some [healing or relaxing music](#), light some candles or burn some incense to create a nice ambience.

### ■ 2) Invocation:

Invoke the activation ('unlocking') by placing your hands together, fingertips touching in prayer position and saying the following. ([Pronunciation for Cellophyte is here](#)).

**"With infinite grace, I ask humbly and clearly to activate the energies and attunement for Cellophyte. With the unique activation code 4197773232 may this be so. May this activation benefit all beings. Thankyou, thankyou, thankyou!"**

### ■ 3) Receiving:

If you wish to, you can now just sit for a few minutes as the energies are unlocked for you. After this period of time, as you feel ready, you may wish to give thanks. The activation is now complete!

### ■ 4) Understanding:

Once you have completed your activation, we ask that you now read through - "[Activation Codes and Prescribed Timeframes](#)". ## MASTER LEVEL SYMBOLS CELLOPHYTE

### WELCOME TO YOUR MASTER LEVEL SYMBOLS COURSE!

It is with much love & light that we welcome you to this Master Level Symbols course and it is our pleasure and honour to be able to share the beautifully cleansing and deeply healing energies of Cellophyte ([pronounced Sell - oh - fite](#)).

Within this short ebook, we will be introducing you to these wonderful and deeply cleansing energies which were received by Love Inspiration in May 2013 from 'Higher Consciousness'.

As part of these intuitive communications, Love Inspiration received information about how to pass on these healing energies for others through the attunement process and we also received additional information about how to use this symbol in our healing & meditation work.

It is our intention to now share this information with you in a way that is simple and easy to understand so that you too can access these beautiful healing energies for the collective benefit of all beings. We sincerely hope that you enjoy these divinely inspired teachings and may these cleansing energies help to bring more love, light & harmony into your life.

## 2. AN INTRODUCTION TO THE CELLOPHYTE MASTER SYMBOL:

To introduce this symbol, perhaps it is a good idea to provide some context as to the way that it was brought through. This symbol came to Marty and Gerry at a time when they were in need of much cleansing and their Divine Guides deemed it to be relevant to bring through this Master Level symbol when they had just completed one of the Divine Cleanses - The Algam Cleanse.

So immediately after finishing The Algam Cleanse (a divine cleansing process which takes around 19 days to complete), Marty and Gerry were then presented with a Master Cleansing symbol called Cellophyte. The Guides explained that it would help to bring about very deep and profound changes in those areas of the body that contained 'imbalance of malfunctioning energies'.

It was explained that this symbol should only be used by those who had been 'appropriately trained' and therefore we have now included this Cellophyte Master level symbol as part of our Master Level Symbol courses.

---

### Here is a summary of what the Guides said about the Cellophyte Master Symbol:

- ♥ Cellophyte is to be used by Love Inspiration and those trained only.
- ♥ It is great for those doing advanced cleansing or for those who wish to receive a strong healing boost.
- ♥ It is good to use this symbol (for general use) by placing it in through the crown chakra or feet chakras; or for specific malforming / malfunctioning areas, place the symbol where required.
- ♥ This symbol can cause deep and profound changes within - please use sparingly as required.
- ♥ This is a strong symbol - please draw with two fingers and ensure that you are grounded when calling on these energies.

---

As with all of our teachings and healing systems, this Master Level Symbols course requires that you receive an energetic attunement so that you can access the Cellophyte energies. This is a most important part of this course and will help to ensure that you can access the full array of Cellophyte energies in your practices.

In the next section, you will find a detailed set of instructions about how to receive the Cellophyte attunement so that you can then start working with these energies in your own healing and meditation practices.

May you have a beautiful and blissful attunement and may you shine these purifying and cleansing energies outward for the benefit of all!

---

### 3. INSTRUCTIONS FOR RECEIVING THE CELLOPHYTE ATTUNEMENT:

To start with, please again ensure that you have satisfied the necessary prerequisites for this course. This will help to ensure that you will get the most out of these energies and that you can be energetically ready to receive these deeply purifying and cleansing frequencies.

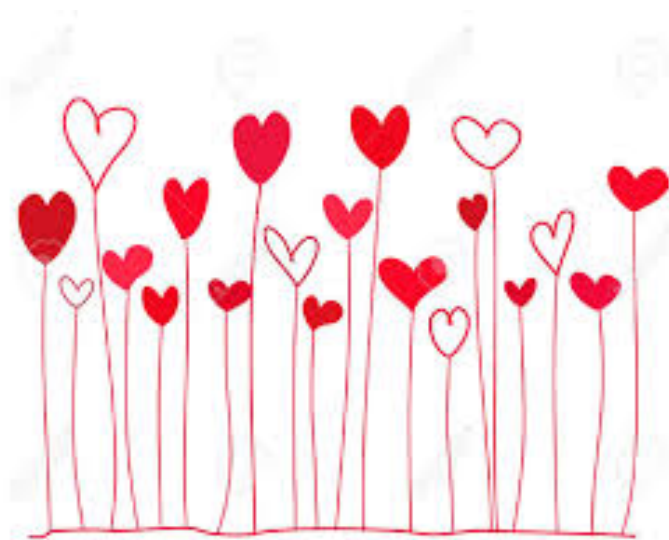

---

**NOTE: Before you receive your attunement, please ensure that you have activated (unlocked) the Cellophyte energies prior to commencing.**

**The activation / unlocking process is a simple 5 minute process which unlocks the energies and gives you access to them. Once you have unlocked the energies, this means that you have activated your Cellophyte attunement and energies, specifically for you.**

**You are therefore then ready to continue your Cellophyte journey by working through this ebook, at your own pace and receiving the energies as you feel guided.**

**If you have not yet activated / unlocked the Cellophyte energies for yourself, you may do this by following the instructions on Page III of this ebook.**

---

Once you have activated (unlocked) the energies, you are now ready to receive your attunement by invoking or calling on these attuning energies. This can be done in your own time and space and is something that is normally very peaceful & relaxing.

And again, the attunement should be received *before* progressing to the healing practices as the attunement will help you to open up your consciousness to these Cellophyte energies so that you can then call on them whenever you wish to in your healing & meditation work. For more information about the attunement process, please refer to our [FAQ's page](#)).

And lastly, you will only need to receive this attunement once. After this, you will be able to call on this Master cleansing symbol anytime you wish to. Wonderful, now lets get started with the attunement!

Normally, we suggest reading through the below material first so that you have an understanding of the attunement process before actually starting. It is our experience that this can help to bring more peace, open-ness and relaxation to the attunement process, as you are more familiar with it.

## CELLOPHYTE MASTER LEVEL SYMBOLS

---

### ■ 1. Preparation:

Sit quietly with both feet flat on the floor, in a peaceful and relaxed environment where you will be undisturbed for about 10-15 minutes. You may wish to light a candle or incense and have soft [healing or relaxing music](#) playing in the background to create a nice ambience.

*\*\* Please note that in any of our other attunements you are able to lie down or sit in whatever way you wish to. However, for the Cellophyte attunement, the Guides specifically said that having both feet on the floor would be beneficial for the attunement process.*

### ■ 2. Invoking the Cellophyte attunement:

Now you are ready to invoke your Cellophyte attunement by placing the hands together, fingertips touching i.e. in prayer position and say the following:

**“With infinite love and light, I open up to receive the attunement for the Cellophyte Master Level Symbol in order to benefit of all beings. Thankyou, thankyou, thankyou”**

### ■ 3. Set your intention for the use of this symbol:

In addition to the above invocation, you may also wish to add an additional intention to receiving this Master level symbol vibration - perhaps something like:

**“Please may this Cellophyte Master Symbol help me to purify, cleanse and grow so that I may shine more light for all beings. May I also receive guidance about how to help others with this symbol for the collective benefit of all.”**

After saying your invocation and setting your intention, you may wish to move your hands from prayer position so that they are resting on your lap in a way that is comfortable for you.

---

■ **4. Receiving Your Attunement:**

The Guides explained that the attuning energies would take around 3 - 4 minutes to receive so we would suggest here that you sit for about 10 minutes – or until you feel the energy flow drop off. This additional time will just help you to just assimilate the energies more effectively into your consciousness and allow you some time to sit in this space of peace & relaxation.

For those who wish to, you may also like to repeat your intention or say a series of affirmations during this 10 minutes, or you may just wish to sit quietly whilst you receive these attuning energies. Whatever works best for you!

■ **5. Closing the attunement:**

At the end of the attunement, you may like to finish by placing your hands back into prayer position to give thanks for receiving the Cellophyte Master Level attunement. Perhaps you wish to say something like:

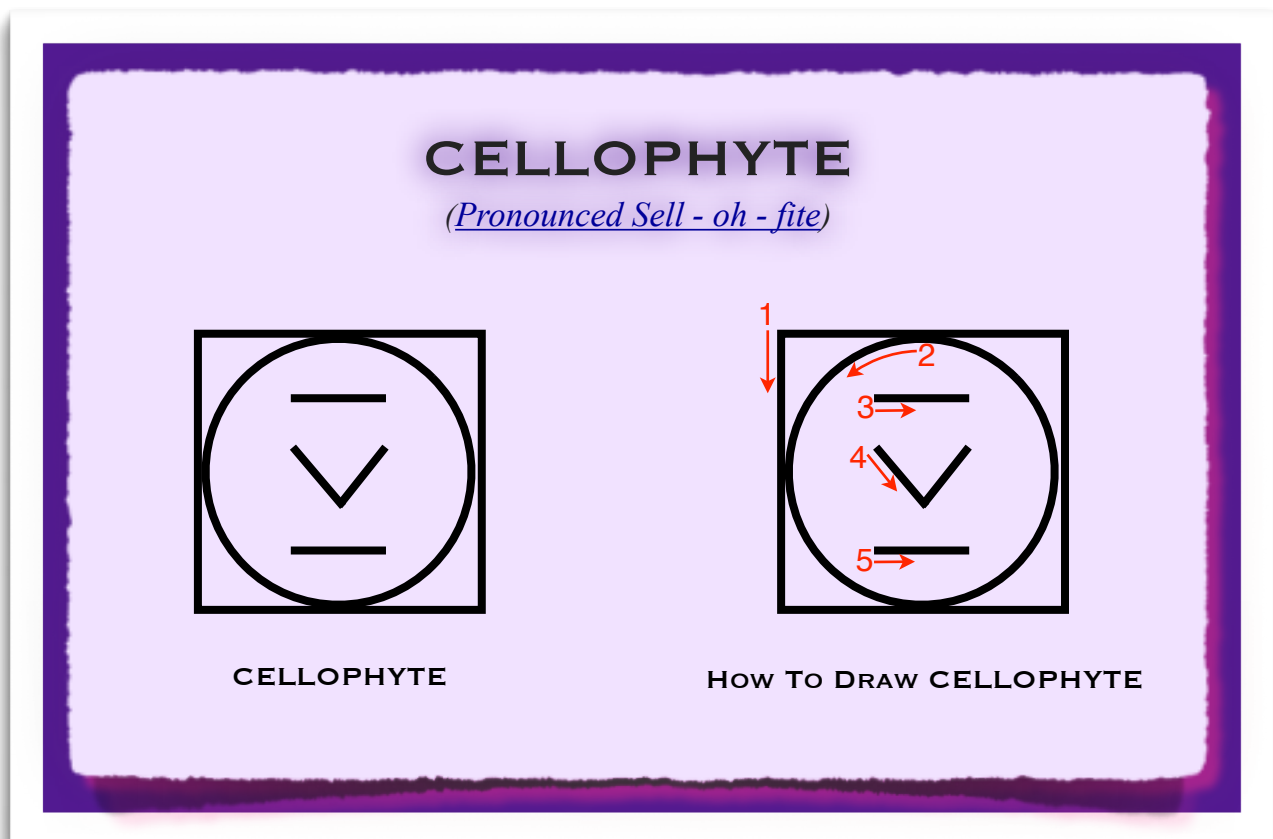

**“With Love and gratitude, I offer my sincerest thanks for receiving this divine Cellophyte attunement. May these cleansing energies help to heal me so that I may shine my light for the benefit of all beings. Thankyou, thankyou, thankyou.”**

**Congratulations!**  
**Your Cellophyte attunement is now complete!**

You are now ready to begin using the Cellophyte symbol as you wish to. In the next sections, we will show you how to draw Cellophyte and then provide some additional guidance about how you may wish to use this symbol in meditation and/or healing work.

#### 4. THE MASTER SYMBOL: CELLOPHYTE:

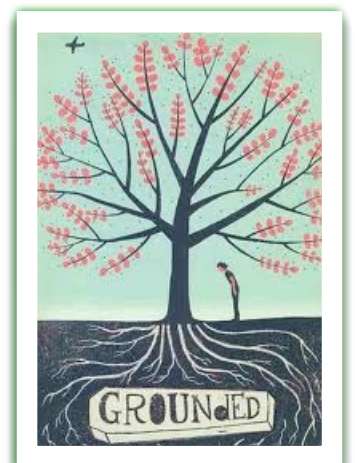

#### 5. INSTRUCTIONS FOR USING THE CELLOPHYTE SYMBOL:

As we mentioned in the introductory section, it is always a good idea to ensure that you are well grounded before working with any symbol, but for Cellophyte this is particularly important. Perhaps you wish to work with your breathing to ground yourself or perhaps imagine tree roots growing from your base chakra into the ground for a few moments before commencing your practice. An example of this grounding practice is given below:

**Grounding Practice:** When you are comfortable ,with eyes closed, please imagine that at the bottom of your feet are thick, strong roots, much like a tree.

The roots are growing deep down into the earth ..... further ..... further ..... further ..... Deeper and deeper down into the earth, helping you to be firmly grounded. Feel the strength that these roots bring to your body, feel the connection to the earth and draw up this beautiful grounded, energy into you. If you wish, you may like to imagine something at the centre of the earth that your roots are tapping into - such as a white light, large crystal or ball of amazing energy. The energy from this can also be drawn up into your body; like you are "recharging" your battery.

This process should take a few minutes and as you feel firmly grounded, you are ready to begin your Cellophyte practice.

## CELLOPHYTE MASTER LEVEL SYMBOLS

---

Another key point to mention here is that for those of you who wish to draw the symbol out with your finger, the Guides have suggested that you draw this symbol with two fingers, i.e. your index finger and middle finger. This will help to invoke the energies more strongly for your practice.

If you are someone who likes to work with symbols mentally i.e. by visualising or mentally drawing them, this is fine, there is no need to do anything different here for your practices.

For the actual healing & meditation practices, these were very simply and easily laid out by the Guides. There are two main ways that we can work with this master cleansing symbol:

- ▶ **1. For General Usage** - Place the symbol into the Crown Chakra or base of feet, or both, for a few minutes, or as long as you wish.
- ▶ **2. For Use On Specific Areas** - Place the symbol into the affected area for a few minutes, or as long as you wish.

Most likely, through your own meditation & healing work, you will already know how you like to work with symbols in healing & meditation. Perhaps you like to visualise white light as you connect with the symbol, maybe you are someone who likes to just be guided by the symbol itself or perhaps you like to visualise many small symbols entering the body through your crown chakra.

There are many different ways that we can work with symbols in our meditation and healing work and for those who wish to take a quick refresher course about some of the basics of working with symbols, we invite you to have a read through [Appendix 1](#) of this ebook - *“Working With Symbols - A Practical Start Up Guide”*. As always, please be guided by your own inner knowing and intuition for further guidance for your practice.

And lastly, please remember that these energies can of course be used in a meditative format to bring immeasurable cleansing benefit to all beings.

For example, please feel free to send Cellophyte to our Earth, our universe, to global situations, to personal situations or to anything at all that requires balancing.

## 6. INSTRUCTIONS FOR THE SELF-CLEANSING PRACTICE:

When the Cellophyte energies were originally brought through in May 2013, the Guides did not give any information about a timeframe for practising with the Cellophyte symbol after the attunement was completed. However in late April 2025, Gerry had the feeling that a self-cleansing practice period needed to be added, and this was soon after confirmed by Higher Consciousness in May 2025, with the following message:

*“Whilst at the time of writing [in May 2013] the energetic significance of a self-cleansing period was not consequential, however now at this time of Earth’s development it is critical to bring these frequencies in more often. And thus a self-cleansing practice period is a grand way to do this. You may believe that these Master Level Symbol energies are here to heal those who receive the symbol, but energetically speaking, each time these energies are drawn on, they are brought divinely into the consciousness of all Earth Beings. Your Earth and your consciousness are ready for these energies.*

*Begin your self-cleansing period with usage once every second day and if you wish, increase to once a day or twice per day. This call is up to you and your divine heart.*

*Outside of this self-cleansing period, use the symbol sparingly for it is indeed strong & deeply healing. But do not let the term ‘sparingly’ dissuade you from use. After your self-cleansing period you will have more understanding about the strength & healing of this symbol, thus giving you a deepened understanding of how to use it and how often. You are learning, and practice is key to learning.”*

*~ Yours, Cellophyte Master 1*

We found this message very interesting as it shows that in the 12 years from 2013 - 2025, that the Earth’s consciousness has indeed shifted, and each of you taking these energies is helping profoundly with that change! So thank you, thank you, thank you!

**Self-Cleansing Practice:** Following the above guidance, it is recommended to complete a self-cleansing practice with the Cellophyte symbol for at least 14 days. This practice is to be done once every second day and if you wish, you can increase to once a day or twice per day, if it feels right for you. The self-cleansing practice can be the practice for “General Usage” (Point 1 on the previous page) and/or “For Use On Specific Areas” (Point 2 on the previous page). We hope you will enjoy this opportunity to use the symbol as much as possible in the coming days! And remember to ensure you are well grounded before using the symbol!

## 7. FINAL COMMENTS:

## APPENDIX ONE

### WORKING WITH SYMBOLS - A PRACTICAL START UP GUIDE

---

#### AN INTRODUCTION TO WORKING WITH SYMBOLS:

Working with symbols in healing and meditation provides a wonderful array of divine healing opportunities as they give us access to a larger selection of healing frequencies. Symbols are also very easy to practice with and give us a much added flexibility to our meditation and healing work.

This quick start up guide will focus largely on the practical aspects of how you might go about working with symbols to start bringing in these love & light filled healing frequencies.

For those of you who have never heard of the idea of using 'symbols' before in meditation or healing, we would suggest to you to read our FAQ page on working with symbols. By understanding the theoretical aspects of working with symbols, we are better able to more deeply experience these energies in our meditation.

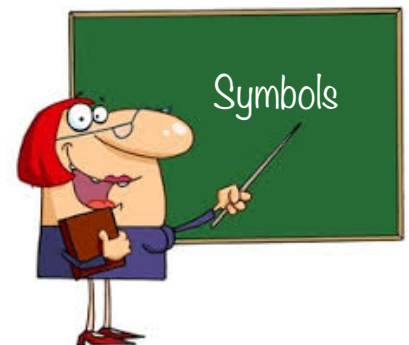

[Click here to visit our FAQ pages 'Using Symbols in Healing'](#)

#### HOW SYMBOLS ARE NORMALLY TAUGHT:

Normally, when someone is being introduced to symbols, they are shown how to draw the symbol, they learn the name of the symbol and they are taught the technique for using that symbol in meditation & healing.

If you are reading this manual, then you will have already been shown how to draw the symbol(s) and you will have been told it's/there sacred name(s). We now just need to learn about some of the techniques used to work with symbols in our meditation and healing so that we can start benefitting from these divinely healing energies.

## **A BASIC TECHNIQUE FOR WORKING WITH SYMBOLS IN MEDITATION:**

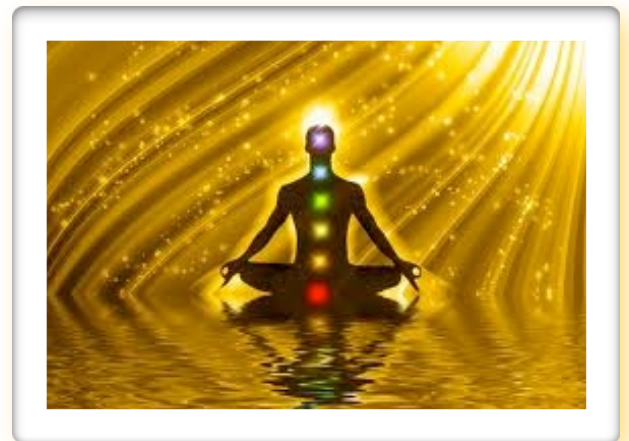

Symbols bring higher sources of vibration into our healing and meditation practices. They can be thought of as being like very good friends. When we treat them with respect & love and connect with them on a regular basis, then they will be very happy with us and in return they will bring much love & light into our life.

The energetic frequencies which are being accessed through symbols are often of significantly higher vibration than we ourselves are vibrating at. As we merge with the frequencies embedded within the symbols through the techniques which we will describe below, we are then able to move closer towards their vibration. As we do this, we heal ourselves of energetic impurities from within as we move to higher and higher frequencies of love & light.

### **So, how do we start working with symbols?**

Typically, when we work with symbols, we normally draw the symbol out, either mentally or with our index / middle finger of our preferred hand, above the area we are working with. Once we have done this, we simply tap it in 3 times whilst saying the sacred name silently to ourselves (3 times).

So, for example if we are putting the symbol into our crown chakra, we will firstly start by drawing the symbol out around 15 - 30cm above the crown chakra (top of the head) and once drawn, we will quite literally 'tap' this into our energy field (3 times) whilst saying the name each time we tap it in.

**PLACING SYMBOLS INTO THE  
CHAKRAS IN MEDITATION**

If you are a beginner, this method of physically drawing and tapping can be quite effective until you reach a point where you feel comfortable doing this process mentally i.e. through meditation. This is probably the most commonly taught method of working with symbols and is very simple and easy to get started with:

- 1. Draw out the symbol over chakra / area of body you are working with (physically or mentally).**
- 2. Tap the symbol into the chakra / area of body 3 times whilst saying the sacred name 3 times (physically or mentally).**

We can imagine the symbols melting into our energy in the same way butter would melt into toast. With time we can start to *feel* the symbol as it enters our energy and we can also start to feel its uniquely divine healing vibration.

## CELLOPHYTE

### MASTER LEVEL SYMBOLS

---

We should point out here that the tapping process does not need to be a physical tapping. This process works equally well (perhaps even more so) if we are able to intend or mentally tap these in as we progress in our practice. You will quickly feel what your preferences are as you start to work with symbols in a regular practice.

Please also be aware that your preferences may change as you progress forwards on this working with symbols journey. Perhaps you start with this physical tapping technique for a month or so and as you feel ready to, you move to a more meditative approach.

You might start with a very easy symbol meditation such as tapping in the symbol over and over again into your crown chakra whilst surrendering yourself to this divinely loving frequency. The more you open yourself to receiving, the more healing you will receive from the symbol. By working with the crown (or third eye) you are able to bring in the healing frequencies throughout the body. By working on these chakras, you are helping to work on your entire being.

#### **AWAKENING OUR CHAKRAS WITH SYMBOLS**

As you progress, you may wish to do this same tapping process for each of the chakras. You could 'tap' all the symbols into each of your chakras and then pause for a moment to feel the blissfulness and then continue to tap in symbols through your crown or third eye chakra. You might find that the process of putting the symbols into your other chakras first helps to lubricate or clear a channel so that you can be more effective.

As always, please listen to your own intuition and do what feels right for you, in your own time and as you feel ready. The key here is to be loving and patient with yourself as you start out with these practices. For those experienced in working with symbols, you will probably already know that there are many, many variations which stem from these basic 'tapping' techniques.

### ADDITIONAL WAYS THAT WE CAN WORK WITH SYMBOLS IN MEDITATION:

Now that we are armed with a basic symbol technique, we can perhaps discuss some additional ways of working with these symbols in our healing and meditation. These additional techniques simply give us some variety with our practice and may help to invoke the energies in such a way that we feel more strongly.

We would always suggest that you work with techniques and practices that bring you higher and more blissful states of vibration. When we can feel these deep states of inner peace, stillness and love-filled energies in meditation, there is most certainly some very deep healing being done.

Ok so firstly, you can try experimenting with the 'tapping' aspects of the basic technique outlined above. Perhaps try tapping the symbols in 7 times or 11 times (instead of 3) as you wish. You may also wish to try tapping these symbols in many times over (more than 11) in order to create additional healing vibrations.

The number 3 is often held as sacred and it is thought to bring the abundance of these energies into physical manifestation. The number 7 is also a good number to work with and 11 is considered by many to be the golden number. You can choose to work with these numbers or any multiple thereof however equally so, this may be too much to focus on during the meditative practice in which case you may just wish to continually tap in the symbol as you feel appropriate.

As you progress also, the tapping process can almost become like you are visualising or intending for the symbol to enter you many times over without any need for a physical or mental 'tapping' process. For example, let's say that the symbol is to be placed into your third eye chakra. You would draw the symbol out, either mentally or physically and then simply imagine, visualise or intend that the symbol's vibration is continually flowing into your energy field.

As you do this, you may tap, tap & tap or imagine, visualise and intend until you can start to feel the vibrations really moving in through your third eye chakra and into your whole body. Over some minutes perhaps, you may feel the symbol's vibration as it flows through your entire energy field for the best possible healing result.

Equally, we could also imagine the symbol just above our third eye. Rather than drawing it out, we can simply visualise it there; perhaps it is made up of white light, shining beautifully, powerfully and very brightly. From here we can 'tap' this into our chakra or body part (as required).

Perhaps you just wish to receive the light directly from the symbol as it sits so iridescently above your third eye or crown chakra. The divine healing vibrations are entering your chakra and filling up your whole body.

Another option could be to visualise or intend many little symbols entering the chakra / body part you are working with. You just need to open up and surrender to the healing power of the symbol to receive the magical vibrations of love and light.

In addition to this, another way to work with symbols in meditation is to simply imagine a very large symbol vibrating and shining from within us. The symbol in this case may be as large as say your whole body. Just keep your meditative concentration focused on the visual aspects of the symbol whilst continuously saying its sacred name.

As we do this, for say 5 minutes, the energetic vibrations may deepen and deepen for us. We can even add in here the wish that the symbol shines for all beings in the world, the universe or the cosmos as you wish to.

We can also combine some of these techniques together. For example, you may be working with your crown chakra or your third eye chakra and drawing and tapping many times over. After some time, say 3-5 minutes, you may find that you can now feel energies starting to fill your body at which point you may wish to now start working with a big symbol, intending that it shine for all.

Most commonly, it is the feelings of surrender, opening up, letting go, gratitude, love, compassion and the altruistic intention which will help you in any symbol based practices. Visualisation, meditative concentration and the strength or purity of your intention also helps to strengthen our practice.

Again, there are many different ways that we can work with symbols in healing and meditation and we hope that these words and techniques will inspire your own divinely guided practice for the benefit of all. This is all part of the fun - to create and grow in a way which brings your practice to life. This can often be a very empowering part of your practice.

Please note that the techniques described here are some of the more popular or widely taught techniques. There are also many others not mentioned, however with our own unique gifts we can each create our own unique techniques!

*We share these with you with love and with the hope that you can use these techniques to bring yourself to higher and more harmonious states of being. We congratulate you on taking this most beautiful step into healing with symbols and we thank you for your continued service to the light.*
